

U.S.A.A.A.U. 1971 NATIONAL AGE GROUP 10 BEST TIMES AND JUNIOR OLYMPICS

A.A.U. Age Group, Junior Olympic,
and Masters Swimming for 1971
By John Spannuth, A.A.U. Aquatics Administrator

The year 1971 has been an exciting year for A.A.U. Aquatics. There has been a great increase in the interest and participation in A.A.U. Aquatics and the future looks very bright.

For the second year our Top 10 Age Group Times have been done by Bud Dallman at Trinity University in San Antonio, Texas. For the second year a computer was used in tabulating these cards and this method has been successful.

There seems to be increased interest in the Top 10 Times and after looking over the age group tabulation you will see how very close these times were during 1971.

The new Swimming Rule Manual and Aquatic Handbook will include the 14th place time for this year's tabulation. These times will serve as cut off times for the 1972 tabulation. All times faster than these times may be submitted by the Associations for consideration for the Top 10 Times of 1972.

During this past year there has been increased emphasis placed on the goals and objectives of age group swimming. We have been trying to remind people that age group swimming is a developmental program that prepares swimmers for open competition. Age group swimming is where the participant learns the basic fundamentals of competitive swimming including strokes, starts, turns and finishes, etc.

Bob Teel served as Chairman of the Age Group Swimming Committee again this year and has been elected to serve this important position in 1972 also.

Joe Stetz, National Junior Olympic Swimming Chairman, wrapped up the latest season of phenomenal performances in the Junior Olympic swimming tabulation by saying, "A phenomenal 40 National record breaking performances highlighted the past season of Junior Olympic swimming indicating that the proximity to an Olympic year is providing incentive for our young swimmers. With more than half of the A.A.U. registration being in aquatic sports, it is no wonder that more than half of the medals awarded for Junior Olympic competitions this past year came in swimming."

A new and exciting aquatic activity for men and women, 25 years old or older, was approved at the National Convention in Lake Placid.

Masters Swimming, a dream of Captain Ransom Arthur, M.D., was officially accepted into the A.A.U. Aquatic Program. In this booklet, you will find the Top 10 Tabulation Times for Masters Swimming compiled by Ted Haartz, Masters Swimming Tabulation Chairman. You will notice that over 250 different people are listed here.

Dr. Roy Goddard, Chairman of the Special Committee to draw up goals and objectives for Masters Swimming, submitted material which has been accepted as the official goals and objectives for Masters Swimming. This material is available through the National A.A.U. Aquatic Office. Dr. Goddard's material points out that Masters Swimming is a program designed to encourage people to swim on a regular basis and be concerned about physical fitness.

This program is for people who have been competitive swimmers in the past, or people who are just interested in becoming more active in swimming who never swam on a team before.

If you would like a copy of the Age Group or the Masters goals and objectives, or have ideas about how we might improve our A.A.U. Aquatic Program, please write to me.
